**COMMENTS INVITED ON APPLICATION OF AT&T INC. ON BEHALF OF PACIFIC

DOMESTIC TELECOMMUNICATIONS SERVICES**

WC Docket No. 11-44
Comp. Pol. File No. 982

Comments Due: April 1, 2011

Section 214 Application

Applicant: AT&T Inc. on behalf of Pacific Bell Telephone Company d/b/a AT&T California

On **February 16, 2011**, **AT&T Inc.** (AT&T or Applicant) filed an application with the Federal Communications Commission (FCC or Commission) on behalf of its affiliate, **Pacific Bell Telephone Company d/b/a AT&T California** (AT&T California), located at **2600 Camino Ramon, San Ramon, CA 94583**, requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services throughout the AT&T service territory in California (Service Area).¹

AT&T indicates that AT&T California currently offers Advanced Broadcast Video Service (ABVS) and Advanced Video Service Component Video (AVS-CD) in the Service Areas pursuant to the terms of the Pacific Bell Telephone Company Tariff F.C.C. No. 1. AT&T explains that ABVS is a 45 Mbps premise to premise or premise to POP digital video service. AT&T further explains that AVS-CD provides for the receipt or hand-off of a digitized video to or from the network interface utilizing component video methodology. AT&T asserts, however, that AT&T California plans to discontinue these services in the Service Area due to a lack of demand as the marketplace currently requires significantly more bandwidth provided on up-to-date technology platforms. AT&T indicates that AT&T California plans to discontinue offering ABVS and AVS-CD to new customers on May 1, 2011, subject to Commission approval of this application. AT&T states that AT&T California then plans to continue to provide ABVS to existing customers on a month-to-month basis, and to discontinue ABVS to existing customers on or after May 1, 2012 with 30 days notice, subject to Commission approval of this application. AT&T indicates that AT&T California also plans to discontinue AVS-CD to existing customers on or after January 31, 2012 with 30 days notice, subject to Commission approval of this application. AT&T maintains that the public convenience and necessity will not be adversely affected by the proposed discontinuances because there are competing advanced video transport services in the marketplace including AT&T's Serial Component Video service and High Definition Video Transport

¹ AT&T's application was subsequently received in the Competition Policy Division of the Wireline Competition Bureau on February 17, 2011.

service. AT&T indicates that it notified affected customers of the proposed discontinuances by letters sent via U.S. mail on February 10, 2011. AT&T acknowledges that its application will be processed under the Commission's rules for dominant carriers.

In accordance with section 63.71(c) of the Commission's rules, AT&T's application will be deemed to be granted automatically on the 60th day after the release date of this public notice, unless the Commission notifies AT&T that the grant will not be automatically effective. In the application and notices to customers, AT&T indicates that AT&T California plans to discontinue offering ABVS and AVS-CD to new customers on May 1, 2011, subject to Commission approval of this application. AT&T further indicates that AT&T California plans to discontinue ABVS to existing customers on or after May 1, 2012 and to discontinue AVS-CD to existing customers on or after January 31, 2012, subject to Commission approval of this application. Accordingly, pursuant to section 63.71(c) and the terms of AT&T's application and notices, absent further Commission action, AT&T California may cease to offer ABVS and AVS-CD to new customers in the Service Area on or after **May 1, 2011**, and may terminate service to existing ABVS and AVS-CD customers in the Service Areas on or after May 1, 2012 and January 31, 2012 respectively, in accordance with its filed representations. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a "permit but disclose" proceeding for purposes of the Commission's ex parte rules, 47 C.F.R. §§ 1.1200-1.1216.
